NET. STUDIO

ARANEA

Hello, I am Ana Radovčić.

A few words on who's behind this catalogue,
and why.

I run Net.studio Aranea - a boutique
consultancy in energy, climate risk and
ESG reporting. Behind me: 20+ years,
100+ companies, 30+ energy audits
(avg. 15% savings) and a number of
manufacturers led through emissions
inventories.

Sustainability isn't paperwork - it's a business
decision. My job is to make it simple: what you
must do, what's worth it, and where to start.
No jargon, a clear next step.

INITIAL ANALYSES · ECGT / PPWR

READY BEFORE THE DEADLINE: NEW EU PRODUCT RULES

Is this you? You manufacture or export, and your products or web site say "eco", "green", "sustainable" or "carbon neutral".

What you get: within days, a clear picture of risk and priorities.

ECGT initial analysis of environmental claims

Screening claims + a "keep / substantiate / remove" tag.

Applies 27 Sept 2026 · HR Zakon o zaštiti potrošača NN 59/2026

Next step: build the evidence base via LCA/EPD (Category 2).

**Empowering Consumers
for Green Transition
Directive (EU) 2024/825**

PPWR initial analysis of packaging

Packaging under Reg. (EU) 2025/40: recyclability, content, labelling.

Applies 12 Aug 2026 · Packaging and Packaging Waste Regulation direct implementation in EU member states

Next step: build the evidence base via LCA/EPD (Category 2).

PROVE YOUR PRODUCT IS SUSTAINABLE

Is this you? Customers or tenders want proof of your product's environmental impact.

What you get: verifiable data so you prove, not just claim it.

Life Cycle Assessment (LCA)

Your product's impact across its whole life cycle.

ISO 14040/14044 · Efficiency Performance Building Directive EPBD (EU 2024/1275)

Environmental Product Declaration (EPD)

An official, verified "composition label" for your product.

ISO 14025

Digital Product Passport (DPP)

Traceability of materials and data across the chain.

Construction Product Regulation CPR(2024) · Ecodesign for Sustainable Products Regulation (ESPR)

ISO 14001

A system that cares about the environment and about continuous compliance.

Send „PRODUCT" > ana@aranea.biz

CUT ENERGY COSTS & MEET YOUR OBLIGATIONS

Is this you? High energy bills, or a legal energy-audit obligation.

What you get: where you lose energy and money - and a plan forward.

Company energy audit (energy-intensive users)

For consumption > 2.78 GWh/year.

Energy Efficiency Act NN 155/2025 · Rulebook NN 123/15, 05/20, 97/21

Building energy audit & Energy certificate (EPC)

For simple and complex technical systems.

Construction Act NN 155/2025 · Energy Efficiency Act for Buildings NN 155/2025 · EPBD (EU 2024/1275)

ISO 50001

For consumption > 23,61 GWh/year. A system that makes savings and compliance continuous.

Energy Efficiency Act NN 155/2025

Send „ENERGY“ > ana@aranea.biz

REPORT ON SUSTAINABILITY - WITHOUT THE STRESS

Is this you? A bank, investor, customer or the law wants a sustainability report.

What you get: a report that passes audit and you do not get lost in.

CSRD / ESRS reporting

Double materiality, implementation, assurance preparation.

[Corporate Sustainability Reporting Directive \(EU 2022/2464\)](#)

EU Taxonomy

Assessment and Sustainability Investment Assessment Based on EU Taxonomy Criteria alignment report.

[EU Taxonomy for Sustainable Activities \(EU 2020/852\)](#)

Voluntary reporting (VSME, EcoVadis)

For SMEs and a better supply-chain rating

[EFRAG Voluntary Standard for non-listed Micro, Small, and Medium-sized Undertakings](#)

Send „REPORT" > ana@aranea.biz

MANAGE CLIMATE RISK AND EMISSIONS

Is this you? You need to understand emissions and risks, and have a credible reduction action plan.

What you get: an inventory of emissions and a picture of risk, plus a credible plan.

GHG emissions calculation (Scope 1, 2 & 3)

Emissions inventory; targets aligned with 1.5 °C.

GHG Protocol · ISO 14064

Climate risk assessment

Preparation for transition plans. Hazard identification.

Intergovernmental Panel on Climate Change (IPCC) · European Environment Agency (EEA) · IFRS · ESRS

Decarbonisation strategies & climate transition plans

A deliverable emissions-reduction action plan.

ESRS E1 European Sustainability Reporting Standard for Climate Change

Send „CLIMATE" > ana@aranea.biz

ONE ENTRY, THREE ROADS

START SMALL. GROW WITH CONFIDENCE.

Every big project starts with one clear first step - the ECGT initial analysis.
In 2-3 weeks you know where you stand; we build the rest together.

STEP 1 · ENTRY

ECGT initial analysis

2 - 3 weeks · fixed fee

Entry fee:

Micro / small	450 €
Medium	900 €
Large	1.500 €

A SMALL, CLEAR STEP -
NO BIG COMMITMENT.

PROOF · PROVE YOUR PRODUCT

LCA > EPD > DPP

≈ 6-9 months · €5.000-15.000 > €20.000+

CLIMATE · CARBON & RISK

GHG inventory > risk > action plan

≈ 9-12 months · €5.000-15.000 > €20.000+/retainer

REPORTING · AUDIT-READY

Materiality > CSRD/ESRS > EU Taxonomy

≈ 12 months · €20.000+ / retainer

Start with the ECGT analysis - send "ANALYSIS" > ana@aranea.biz
